Getting Started with GDI

Every person that joins the [Follow Our Lead team](#) will be given the tools, knowledge and support needed to build a residual income for the long term, and every person will be put into a position to succeed.

People join a home business or a online business but over all 97 percent of them fail because they don't have the training and support they need to build there business.

Our solution is to create a team - "Follow Our Lead" - which functions as the "primary business" even though it is not a business at all. We have packaged multiple low cost, highly stable businesses together that complement each other. The package we have put together is a complete package of tools, products and services that are everything a person needs to succeed in creating a successful residual producing business.

Once you join [GDI](#) and get plugged into our support group in Just Follow Our Lead you will see that the training and support is there for you to build your business.

We combine that with the training and team support of our group. The result is a situation where every person who comes on board can and should succeed in meeting their goals. Those who join us and follow our lead will see their lives change dramatically. The residual income that we will create will mean personal and financial-freedom that few people on earth enjoy.

Each team member can also sign up for their own personalized duplicatable team site. It will make it very easy for our members to treat our group as a centralized "primary business."

When you join our team, you will be part of an already successful team built around duplication and empowering people to create residual income that will improve their quality of life. Because we are building our business the right way and not through the vicious cycle of attracting people with false promises and dishonest powerline schemes that seem so prevalent right now, we are able to feel very good about what we are doing and we will see a lot of people change their lives for the better.

I hope that you are one of those people.
