# Tissa Godavitarne Scam?

Tissa Godavitarne Scam came from my keyword list from my blog. It was one of the most searched phrases to my blog here in the past 30 days. The only thing I can think of is so many people are seeing Tissa Godavitarne system for the first time and they think it is a scam.

I joined Tissa Godavitarne system back in January 2009. I worked the system on my own without bringing any of my team into it until I got my first check in Mid-March of \$320. At that point in time I began to bring in my frontline team from GDI to show them this system could convert into signups in GDI.

The month of March was by far my best month in using the system. But in April time frame I began to see a decline for me personally in trying to keep my quality rate up. This is where I began getting 80% of my funds held in reserve. Tissa paid me 20% and he kept 80%,

Over the next two months I changed my entire marketing strategy and began using Squidoo Len's, Wordpress Blogs and Google Pay Per Click to build my business.

By the end of June I had lost 20 percent of my team that was using this system. Why? This system is not newbies, in order to make money in all the different income streams you have to use Google PPC.

I had some choices I guess I could have turned off my forced hosting and give the signups to Tissa to raise my quality score. But I am not in GDI to build it for Tissa I am in it to build it for me.

I have made \_ close to \$700 using this system but have over \$1,400 held in reserves in which I will never see a penny of.

Is it a SCAM? I am not sure, it didn't work well for me and my team. I do know it's not worth \$29.95 a month, it's not for newbies, and it put much more money in Tissa pocket while I used his system then in my own.

I left Acme People Search the end of July. I joined The [New Rich Report](#) Team, I have signed up close to 600 people in New Rich Report. It promotes [GDI](#), [GVO](#) and my primary business [My World Plus](#). I am pleased to see my first month using the system it converts people well into GDI. My first GVO check was well over my \$320 payout in Mid-March with Tissa and I have signed people up into my primary business.

After leaving Acme People Search and using The New Rich Report I have a growing organization of well over 350 people. People joining the business now have a step by step training package to use to become a successful online marketer. The [New Rich Report](#) offers people a simple system with a duplication model that works. The best part about the New Rich Report it is Free. Join and check out the back office today.

So is Tissa Godavitarne Acme People Search System a SCAM? I know it works for many people but it didn't work out in the long term for me or my team.
