Weekly Payday's with My World Plus

Since I joined [My World Plus](#) back in September 10, 2009. I am now excited about Friday's since this is My World Plus paydays.

For a \$19.95 membership that offers great savings for our entire family on things that we purchase every day. We are seeing a 3 figure check for the third straight week.

I think one of the key points about My World Plus is the compensation plan is set up that everyone can make money. Even without sponsoring anyone you will be paid on 5 levels. It won't cover your monthly membership but I did say you will get paid even without recruiting a single person.

Your main goal when joining is to recruit three other people and move to Star 1 level. There you will make more than your monthly membership.

We just moved to Star 2 level. Over the next couple months we want to help our team [Silagra](#) get to there Star 1 and Star 2 levels which in turn help us move to Star 3. If we can do that within a 6 month period will meet our goals.

During this time frame we will continue to look forward to Payday Friday's.

Watch the [movie](#) and take a tour today of [My World Plus](#) we would be happy to help you get started and enjoy Friday's a little bit more.

MWP has a lot of exciting things in store to make 2010 even BIGGER and with New Years right around the corner, you really could not have picked a better time to be involved in a company than right NOW with MWP!
