Online Marketing, Tips And Advices

You are a newbie trying to make your cash online?

You are struggling with the Affiliate programs you have joined recently with the hope to make money like their owners or to reach the Rank Super Sponsor? [Brand Levitra](#) I speak about earning thousands of Dollars a week AND, Be Successful In What Are You Doing!!!

Have you joined all surfing sites and safe lists, trying to advertising your affiliate program for weeks and months and still you have only 2 or three people who joined you AND they are not active? Means they are not helping you to make the money you are expecting at all!!!

I have such a problem with my underlines, i am writing them encouraging them, showing them ways to earn and trying my best to make it easier for them, because i have been there and i am their sponsor, they don't have to go all the hard way to explore the Alfa things in Online Marketing! Means i have to help them so as to work all of us like a team. And after all my efforts they will never answer or even say thank you for your emails.

And consequently your business is freezing, because if your 3 downlines are not active, so what is the benefit from them?

For me the better solution is just to search again, for the right people, the people who will work with you and will make you feel like you are working in a team not alone. I do believe that there are such people, we just have to search harder for them and not to concentrate our efforts on people who are not active, respectfully, Not Helping You At All!

Yes, i know that you have been through all this, just like me,,, and my frustration comes from the reason that i am spending almost 15 hours a day in front of the PC trying to make at least 100\$ a month, but in vain.

I have started to think why? why i cannot make even 100\$ a month, not talking for now about making 100\$ a week!.

Here what i think, first about the free advertisement.. we all have to know that free means that it will not work as great as the paid advertisement, but for now and for a newbie it is the best way to start till you figured it out, or at least till you learn something more about marketing and have more skills in advertisement.

Only then it is good to try paid advertisements, like google adwords..

But there is other sites where we can advertise, like [NeoBux](#) and other PTC sites or even write articles. I had found my leads there on these PTC Sites! And i can say with a hand on my heart that those site are really one great source of downlines.

You may ask why surf sites and safe list are not working? for me because who is signing in these sites? of course WE.

And who is surfing our advertisements? WE!:-)

So you cant sell there cucumbers to the cucumber sellers (Bulgarian Saying)

Unless you have something unique to offer and different so as to to make the surfers STOP and actually read your post!

The most important thing in these surf sites is to use Splash Pages.

This is the best way to attract attention, where people are in a hurry to the next site and don't have time to read long articles.

And for the question, why the safelists are not working the way we are expecting them to work?

I think from my experience the reason is because people who are using the safelists to send emails to members to these Safelists sites are the same who are surfing on the exchange Sites, we see the same offers we were

browsing all day in the emails we receive!

And here is one additional info about these type of free surf sites i have read recently this statement from one member in [Acme People Search Forum](#), by the way you can find there a great amount of info that for sure will help you a lot in your way as a newbie in the online marketing here is his statement (Traffic Exchanges are notorious for not working well to drive quality traffic. If you are looking to use free methods of advertising, I would suggest Squidoo lenses, article writing, and blogging. There are lots of people who do nothing but that and do very well for themselves).

Despite that i haven't lost faith in these advertisement methods, because they makes you to improve your advertisement skills and present your Program every time after you have been corrected something or added a new idea to it, for the only reason your offer to look Great, eye catching and with the perfect offer to the audience out there.
